

TriLight

Triple Diode DMX Controlled Linear LED Fixture

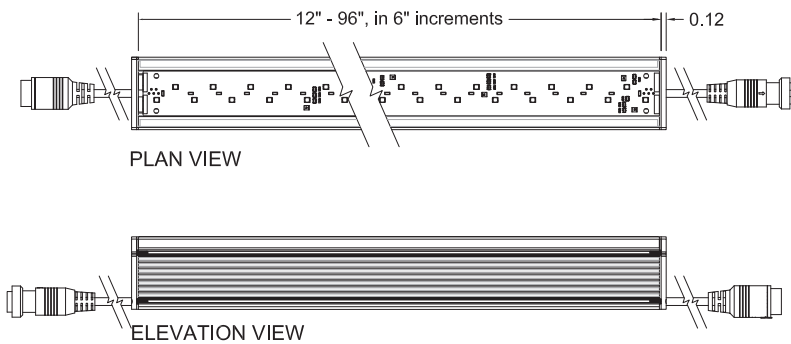

Dimmable color mixing low voltage fixture fabricated with a variety of options.

The Boca TriLight is a small profile RGB color changing fixture that is useful in many lighting situations where color mixing is needed, and space is an issue. The TriLight's triple diode color mixing process creates an even wash for color mixing, even at short distances. It can be fabricated with a range of optics and accessories. The housing is anodized aluminum with a durable finish making it weather and abrasion resistant. It is UL Listed for dry, damp or wet location (model dependent).

* Patent Pending

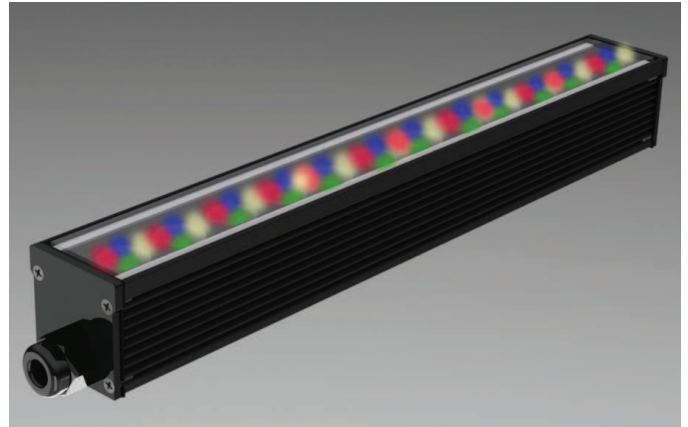

Technical Specifications

Wattage	9 watts per lin ft. for RGB, 12 watts per lin ft for RGBW
Input Voltage	12 VAC
Input Current	Model dependent
Control ...	Boca Flasher Digital Mainframe or IMCS box w/ Standard 512 DMX control
Power Cable Length	UL Standard 6.5ft
Fixture Length	6" increments
allow 1/4" for each end cap and 1" for power feed cable
Fixture Width	1.66"
Total Height (not including clip)	1.68"
Mounting	Fixed or Swivel
Color Options	Triple diode RGB, or Triple Diode RGB with white option
Optics	120°
Exterior Wet Listing Options	IP65, IP68

PROJECT: _____

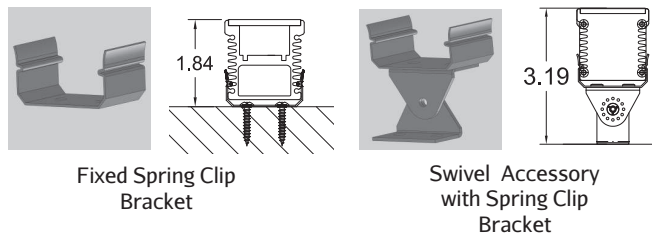

TYPE: _____

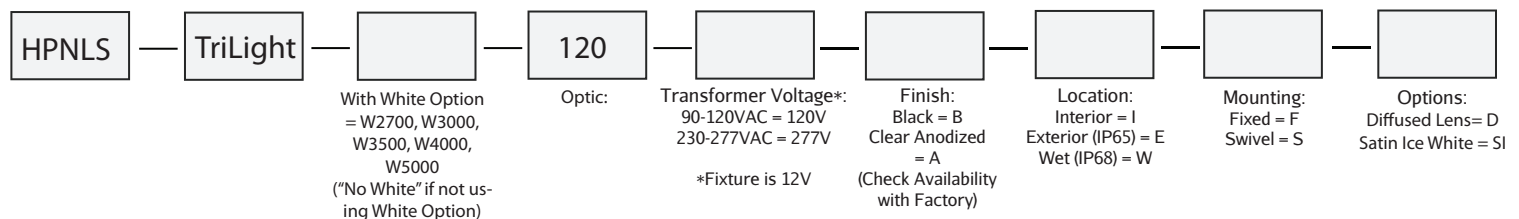

Key Features

- Triple diode ensures even color washing, even at short distances
- Compact, variable light fixture for dry, damp or wet location use
- Fixture comes in 6" increments (12" minimum)
- Many options in optics and accessories to suit a range of projects - call factory for additional options
- Three different types of lens
- EMI Filter integral
- Can use standard 512 DMX controls
- Clear aluminum or black finish- check factory for availability
- Contact Boca Flasher for tips on custom installations
